

KUNAL SINGH

kunal.singh_ug25@ashoka.edu.in, 22 years
+91 7891407123 , <https://www.linkedin.com/in/kunalsingh-au/>

Technical Proficiency Python, MySQL, PowerBI, Data Science, Data Analytics, Product Management, Stakeholder Management

EDUCATION

B.Sc (Hons) in Computer Science, Concentration in Entrepreneurial Leadership and Strategy	Ashoka University	2026	3.44/4 CGPA
CLASS XII	Army Public School Bathinda	CBSE 2021	92 %
CLASS X	Army Public School Bengdubi	CBSE 2019	96.4 %

INTERNSHIPS EXPERIENCE

WORLD BANK | DEVELOPMENT ECONOMICS (DECDD) | Intern Nov 2025 - May 2026
A Reproducible Research Initiative supporting empirical research transparency through reproducibility and open-science for global standards.

- Verified **14+ World Bank research packages**, ensuring stable results and **transparent empirical workflows**.
- Re-executed RePec Repository to update the old dataset of world bank authors in **Github Codespace** with RePec **API key**
- Reproduced exhibits and **analytical outputs** for PRWP papers, **identifying inconsistencies** using **Excel** and **Stata**.
- Reviewed repository packages for completeness and **metadata** accuracy, **improving reliability** of reproducible research assets.
- Collaborated with other interns to **reimagine Recreated Repository Tab** on official website using **Lovable** .

FINTERNET LAB | Engineering Intern Jun 2025 - Sep 2025
A mission-driven Fintech initiative under the Networks for Humanity Foundation focusing on building foundational DPIs global finance.

- Developed a **fundraising app prototype** integrating compliance standards, ensuring regulatory alignment across **3+ jurisdictions**.
- Implemented **2+ Finternet components**, including wallet integration to enable secure and transparent digital financial interactions.
- Designed privacy-first user flows with 3 cross-functional teams, delivering **40% faster** onboarding and **2+ distinct role-based** interfaces.
- Built MVP features with **Next.js, TypeScript, and 5+ microservices**, supporting 2 payment methods and scaling to 1000+ concurrent users.

NEW ZEALAND CRICKET (VIA EDUCATION NEW ZEALAND) | Project Intern Jul 2025 - Jul 2025
The governing body for cricket in New Zealand, working with education programs to improve cricket development and youth engagement.

- Collaborated in a **6+ member** team to design and deliver an MVP solution addressing a real client challenge within **3+ weeks**.
- Applied product management skills including **journey mapping, wireframing, and prioritization**, ensuring timely deliverables.
- Conducted **user interviews** with cricket development officer, tested **5+ features** to meet user needs and organizational goals.
- Utilized **LovableAI** and **competitor analysis** to prototype designs, manage workflows, and present final deliverables to the client expert.

PROJECTS

Puchtach: Cross-Lingual Benchmark for LLMs - Computer Science Research Thesis Oct 2025 - May 2026

- Developed **100 Hindi QA pairs** from across four ministries, enabling systematic evaluation of LLMs on govt information retrieval tasks.
- Built an **end-to-end cross-lingual evaluation pipeline** using Python, GPUs, RAG, and machine translation to assess factual accuracy.
- Executed **7,200 benchmark experiments** across four open-source LLMs, nine context conditions, and two prompting strategies.
- Implemented evaluation using **BERTScore, ROUGE-L, and keyword-hit metrics**, quantifying retrieval, translation, and prompting effects.
- Identified that **effects of context, coverage, tokens, annotation and local execution**, providing insights for deployment issues.[\[Link\]](#)

YouTube Feature Addition - Product Management & Development Apr 2025 - Apr 2025

- Led the development of **product roadmap and timeline** for an interactive video learning tool, aligning to user needs and business goals.
- Designed a clear **go-to-market and revenue model**, exploring freemium tiers, **AI-powered premium features**, and B2B license strategies.
- Conducted a detailed **competitive analysis** of platforms like Edpuzzle, YouTube Studio, etc. to **identify feature gaps** and positioning.
- Contributed to **MVP design and deployment**, prioritizing high-impact features such as in-video quizzes, polls, and advanced analytics.
- Leveraged insights from **56+ user surveys, literature reviews, and case studies** to guide evidence-based strategic decisions.[\[Link\]](#)

Graph-Based Analysis of Restaurant Businesses - Data Science & Graph Analysis Apr 2025 - May 2025

- Designed and implemented a Neo4j graph model analyzing **Yelp's 52K+ U.S. restaurants**, integrating **~7M** nodes and relationships.
- Conducted **extensive preprocessing across 5 datasets** with custom parsers, imputation, and NLP techniques.
- Modeled complex entity relationships via **Cypher**, enabling **multi-hop path analysis** for users, reviews, tips, and businesses
- Performed **Python-based EDA** to extract insights on elite users, location trends, and category preferences
- Built **link prediction and recommendation pipelines** using Neo4j's GDS library for user and business recommendations.[\[Link\]](#)

POSITIONS HELD

Co-President ← Head of Logistics ← Member | Ashoka Cycling Club Dec 2022 - May 2025

- Led a **30+ member team**, managing operations, budgeting, and outreach while **organizing 15+ cycling events** with **500+** participants.
- Initiated Ashoka's **first HCL Cyclothon entry** and established **Yamuna riverbank route**, leading **20-30 km group rides**.

Student Ambassador Mentor ← Student Ambassador | Ashoka University Sep 2023 - May 2026

- Conducted **40+ campus tours**, moderated webinars and Q&A sessions engaging with **700+ prospective students and parents**.
- Managed **logistics and backend operations** for **10+ major university events**, including Founders' Day and Counsellors' Meets.
